DIVISION 4

THE NORTH COAST DIVISION

OUR NEXT REGULAR MEETING WILL BE FRIDAY, SEPTEMBER 10, 2021

WHEN & WHERE WE MEET

The North Coast Division holds 10 meetings a year (none in July and August). Meetings are on the 2nd Friday of each month. A social half hour starts at 7:00 p.m.

followed by a short business meeting at 7:30. After a short break, a railroad themed raffle and clinic complete the typical agenda. Starting September, 2020, the meetings are held at the **Westlake City Recreation Center**, 28955 Hilliard Blvd, Westlake, OH 44145. Visitors are welcome to attend any meeting.

The Division's newsletter, *The Flatwheel* is published monthly (except during July and August) by Division 4 of the Mid-Central Region (MCR) of the National Model Railroad Association (NMRA). All comments are welcome.

Views expressed in *The Flatwheel* do not necessarily reflect the opinion of the NMRA, MCR, or Division 4.

The Flatwheel is typically electronically published no later than the Monday preceding the monthly meeting. Submissions are due no later than the 26th of the prior month, for example, August 26th for the September *Flatwheel*.

FROM THE SUPER

“Driving the train doesn’t set its course. The real job is laying the track.” Ed Catmull

Here we are half way through summer already and on to our second summer edition of the Flatwheel. As I had said in my July column Chuck asked to put together two summer editions of the Flatwheel. I hope you are enjoying your summer reading.

I just got home from our summer picnic at the Northern Ohio Live Steamers layout in Lester. We had about 60 people attend with quite a few family’s enjoying burgers, brats, hot dogs and riding trains. It sure was good to get together after the bug. The weather was a little iffy at the beginning of the day but by the afternoon the sun was out and the temps were tolerable.

Have you been retreating to the basement during the hot days to work on some model railroad projects? I have been working on a project mounting tractors on flatcars. The flatcars are some Red Caboose kits I have acquired over the years that I assembled and added wood floors. Then I made blocking from wood strip stock to glue to the decks to position the tractors. I should have a good looking train of flatcars with tractor loads to operate on the modules. Let's hear about what you have been working on. A short article for the flatwheel is all there is to it.

Speaking of modules, we have our first gig of the season scheduled. We will be displaying at the Cuyahoga County Fair August 10th through the 15th. If you are at the fair be sure to stop by and check out the layout. We will be in building Number 29, the Home and Hobby Building. After that our show in October will be next.

One other thing on the subject of county fairs. The Medina County Fair is coming up August 2nd through the 8th. And with it the Medina County 4H club layout in Building 12. They will have a smaller setup compared to previous years but they are still showing. And while there vote for your favorite module and sign up for the engine drawing that I will award at the September meeting.

As a gentle reminder, be sure to sign up to help at the Great Berea Train Show in October. There are a variety of jobs to fill. You can always sign up to work at the gate if you don’t want to lug tables and chairs around. There is something for everyone to do. This is our one big project of the year, so please step up and volunteer.

If you come across someone who is interested in model railroading during your summer invite them to a meeting. See everyone at our next meeting in September.

As always, Model Railroading is Fun !!!

MODULE GROUP

Greetings Fellow Model Railroaders!

The module group is about to go into high gear over the next 4 to 6 weeks by displaying at two major events! First up, the **Cuyahoga County Fair** located at the fair grounds in City of Berea. We are still working some minor details such as personnel scheduling, but everything else is on track. As in 2019, we anticipate this event to be great opportunity to introduce or re-introduce people to great hobby of model railroading and, of course, to run some trains. The fair is scheduled to begin on Tuesday, August 10th and run through Sunday, August 15th. If you plan on attending the fair, don't forget to stop by and see us. We will be located in the Home and Hobby Building.

Next up, is the **Cleveland Oktoberfest** also located at Berea fair grounds. We have been working out the details for displaying at this event and continue to do so with the event organizers. Details regarding displaying at this event will be released shortly to the members of the module group. This event is scheduled for two weekends in September. The first weekend will begin on Friday, September 3rd and end on Monday, September 6th while the second weekend will begin on Friday, September 10th and end on September 12th. This event, just like Cuyahoga County Fair, is also considered a great opportunity for exposure to the general public.

In summary, mark your calendars for those upcoming events. If you are interested in joining the module group and operate a train or two on the layout, then please don't hesitate to let me know. There will be plenty of opportunities over the next couple of events for anyone that would like try their hand at module model railroading. Please email me at woo3482@hotmail.com and let me know if your are interested.

Until next time!

Adam "Hot Box" Woodie

Adam "Hot Box" Woodie

CONTEST TABLE

The new list of contest challenges for 2021 - 2022 season are as follows;

September asks for an interesting tank car from the era that you are modeling or simply a tank car that you find interesting.

October contest is looking for a small steam powered switch engine. The type you would find in freight yards or industries but not on the head end of a fast freight on the main line.

November's contest subject matter is about something that all railroads have and still do use for traction. Sand facilities are always found around engine service areas, whether it's old time steam or today's diesels. Getting traction on slippery rails is made possible with sand. So let's see what you come up with as a sanding facility.

January will give you a chance to build a small, rural station. Depending on the railroad and its location, the designs can be unique and varied.

February's contest is asking for an R.P.O. (railroad post office) car.

March is the "blank box car contest. Blank box car bodies will be available at all meetings at the Contest Table. You can have as many as you need at no cost to complete your model project.

April's contest is a grain hauling car. Forty foot box cars were the standard until covered hoppers came along.

May's contest is challenging you to show a piece of logging industry equipment that needs rail to move on, other than a locomotive.

Joe Filipiak

RAFFLE

Greetings Fellow Model Railroaders!

No monthly raffle for the month of August since there are no scheduled meetings. The raffle will resume at the September meeting.

Until next time!

Adam "Hot Box" Woodie

Adam "Hot Box" Woodie

STANDING NOTE

So you want to build some turnouts - whether you are working on Achievement awards, or upgrading your trackwork, this is a reminder that the Division has an inventory of Fast Tracks tools and supplies for use by members. All are HO Code 83.

We have #4, #5, #6 and #8 turnouts (left or right), #6 Gantlet, and #6 crossovers (single or double). Plus all supplies including the Quicksticks.

Contact Steve Kaplan - 216-533-4319 spk@skaplanassociates.com to arrange to borrow what you need.

Steve

JUDGING THE 2021 MEDINA COUNTY 4H MODEL RAILROAD CLUB MODULES

By Joe Kurilec, MMR

4H members have their modules judged before the Medina County Fair opens. Division 4 members are encouraged to visit the Medina County Fair from August 2 to 8, 2021 in building 12. There Division 4 members can vote for the favorite module they liked the best. Make sure you ask for the clipboard to vote and sign in for a special raffle. It was 2019 when the last judging took place. This year Scott Benson, Scott Meredith, Scott Kogler, Kyle Kogler and myself judged entries. Scott Kogler and myself judged the senior modelers. Scott Benson and Kyle Kogler judged the junior modelers. Scott Meredith oversaw the the judging. All entries showed a great deal of creativeness and all levels of skills learned. Following are the entries we viewed.

JUDGING THE 2021 MEDINA COUNTY 4H MODEL RAILROAD CLUB MODULES

JUDGING THE 2021 MEDINA COUNTY 4H MODEL RAILROAD CLUB MODULES

This module was laid out very well. Not cluttered but details were placed just right.

The baseball field had really neat lights.

JUDGING THE 2021 MEDINA COUNTY 4H MODEL RAILROAD CLUB MODULES

The use of turnouts was well done into the grain elevator siding.

The use of printed brick paper on the bridge was very effective and the modeler used paper mache to make the hills. There is something that you don't hear anymore!

JUDGING THE 2021 MEDINA COUNTY 4H MODEL RAILROAD CLUB MODULES

This snow scene was very professionally! The snow was done almost perfect.....and the iced over pond, center of picture, was made of melted clear wax! What a great idea!

The white area in the center is a reflection of my camera flash!

JUDGING THE 2021 MEDINA COUNTY 4H MODEL RAILROAD CLUB MODULES

The mud/dirt area looked very good. We were told that the color dried in different shades. Nice.

This was a junior entry. This modeler used a "Zoom" contact to the judges cell phone! VERY creative. He also scratch built the stone bridge, left center.

THE DYNAMIC DUO AND A FAMILY TRADITION

From 1941 to 1985 PART 1.

by Joe Kurilec, MMR

As mentioned in the last issue of the Flatwheel "teaser" here is the complete story of the two sharecroppers as they learn "the greatest hobby in the world". MODEL RAILROADING!

A brief note about Bernie Klein. He worked for Cleveland Transit System and part time at Hobbyville at West 110 & Lorain Road. There he worked with Gary Sole. Bernie helped Gary get into model railroading. Many of you know about "Bernie's Bargains" at our Great Berea Train Show. Chuck & Mike Klein & Gary Sole run "Bernie's Bargains". Just a little part of Division 4 history.

Our story will start off in 1941 when Bernie & Lillian Klein started model railroading. Every year they set up a Christmas layout under their tree.

Take a look at some of the classic Lionel trains. The person to the right (leg & sock) is Bernie's cousin Ernie.

THE DYNAMIC DUO AND A FAMILY TRADITION

From 1941 to 1985 PART 1.

Fast forward to 1948. Another Christmas tree layout, only now it is expanding! Bernie started scratch building structures for the layout! Notice the water tower left of the tree and to the right, a wooden trestle. More on these great models later on.

THE DYNAMIC DUO AND A FAMILY TRADITION

From 1941 to 1985 PART 1.

Here we see the kids in 1953. You'll notice the younger and much better looking brother, Mike Klein on the left!

Chuck Klein on the right hey you wanna play trains look?" Once again the layout is growing. The wooden trestle in the rear has expanded and a new wooden fence protects the layout. Mike on the left still has to figure out the wheels of the loco go on the tracks!

THE DYNAMIC DUO AND A FAMILY TRADITION

From 1941 to 1985 PART 1.

This 1955 scene shows the layout growing. The mountains are crumbled brown paper.

THE DYNAMIC DUO AND A FAMILY TRADITION

From 1941 to 1985 PART 1.

It now 1960 and color film is used. Notice to the rear is a HO scale set expanding the layout once again.

THE DYNAMIC DUO AND A FAMILY TRADITION

From 1941 to 1985 PART 1.

In 1963 the village is growing. Beside cardboard structures, the use of Plasticville structures can be seen. The layout has added S gauge American Flyer models just to the left of the village houses.

THE DYNAMIC DUO AND A FAMILY TRADITION

From 1941 to 1985 PART 1.

1965 show more and more items added to the Christmas layout.

THE DYNAMIC DUO AND A FAMILY TRADITION

From 1941 to 1985 PART 1.

In 1968 Bernie painted the Alco diesels in NYC colors. (great job). I think they were originally in Union Pacific colors.

Notice the red stripe at the bottom of the locos. The original Lionel paint job was UP yellow & red.

THE DYNAMIC DUO AND A FAMILY TRADITION

From 1941 to 1985 PART 1.

Here we see in 1978 a standard gauge scale and to the right a Lionel set. The water tower in the center is made from an old Quaker Oats box.

This must have been where Dave Lawler (Mr. Cheerio box) got his start!

Mike Klein still has the water tower model his dad built.

THE DYNAMIC DUO AND A FAMILY TRADITION

From 1941 to 1985 PART 1.

In 1985 the layout started to shrink. I really like the Lionel loco and passenger cars. The use of a Lionel ZW transformer powers the layout,

This ends part 1.

Part 2 will show some of the excellent models that Bernie Klein made. Keep in mind the years these were built and the materials used.

Chuck & Mike Klein hope they passed the audition.

A special thanks to the Klein family for sharing these wonderful memories.

ABOUT US

We are Division 4 of the Mid-Central Region of the National Model Railroad Association. (DIV-4 MCR NMRA).

With more than 200 members from Cuyahoga, Erie, Huron, Lorain and Medina counties in the state of Ohio.

The North Coast Division meetings are normally held on the second Friday of the month, to hear guest speakers, share skills, have railroad related clinics, and to share common problems and successes. Many of us get together informally in round-robin sessions to operate and work on each other's layouts, or just talk railroads and modeling.
